Flight Site

The Landing Zone/Scene Safety Kit

Flight Site, helicopter landing zone/scene safety kit. **Flight Site** will identify your helicopter landing zones in the safest and most effective way possible.

With thousands of **Flight Site** landing zones in service, this system has proven to be an outstanding contribution to medivac / rescue teams.

This five-strobe system with its **12,800Ft. ceiling** identifies the landing zone to the pilots from great distances. **Flight Site** with its **non vision impairing** flash saves pilots precious life- saving time while pinpointing landing zones with extreme accuracy. **Flight Site** is **easy to use and is quickly deployed**. This will not allow the strobes to move even under the heaviest rotorwash conditions. **Flight Site** has many diverse applications that can be applied to your department's operations. Enhance your high-rise operations by using our multi colored strobes to identify floor-to-floor operations or by marking your water supply lines in roadways to motorists. You will now have the capabilities to do these and many more applications with the very affordable, **Flight Site** Landing Zone/Scene Safety Kit. **Flight Site** will enhance your

medivac/rescue delivery while at the same time add a multipurpose tool to your department.

With the very affordable, **Flight Site** helicopter landing zone/Scene Safety Kit you will enhance your medivac/rescue delivery. For any questions please feel free to call us.
